

Raising a Thinking Child

Mondays, January 28-March 18
3:15-4:45 p.m.
Turtle Creek Elementary School
1235 Creek Road, Delavan

If you are a parent of a 4-7 year-old and your child has experienced any of the following:

- ◆ Temper tantrums
- ◆ Difficulty making or keeping friends
- ◆ Impatience or interrupting
- ◆ Not listening

Then the **Raising a Thinking Child** workshop may be just right for you! This evidence-based workshop series will help you guide your child to solve common, everyday problems by communicating with your child.

Participants will learn:

- ◆ To give their children skills to solve their own problems and think about the consequences through fun games
- ◆ How to help kids care about and understand their own and others' feelings

This program is facilitated by Jenny Wehmeier, Walworth County UW-Extension Family Living Educator. It is a refreshingly practical curriculum that helps you help your child learn *how* to think, not *what* to think. Through 8 weekly classes, along with interactive, fun activities for you and your child to do at home, you will learn ways to help your child think in new problem-solving ways.

A *FREE* children's program will also be offered from 3:15-4:45 p.m. for children four and older.

Raising a Thinking Child Workshop Registration
